EXPERIENCE

I do not have any professional experience however, I have worked on various Python-based projects including Web Scraping, Game and Web Development, and GUI programs.

HOBBIES AND INTERESTS

Music holds a special place in my heart, whether I'm listening to my favorite songs, or attending live performances. Drawing has been a lifelong hobby that has allowed me to bring my imagination to life and express my thoughts and emotions visually. I also love photography as it allows me to capture moments and express my creativity and the beauty that surrounds us.
